

RESERVATION REQUEST FORM SPACE EXHIBITOR AND TEAMS

From 26 August to 1 September 2024

Entry to the paddock from August 24 at 10:00 a.m., prior accreditation at La Massana (accreditation centre)

Team or company details:

| Company name (for billing) : | E-mail: |
|--|--|
| Business name (brand/team): | Address: |
| CIF: | City: |
| Contact person (for assembly): | Country and postal code: |
| Mobile phone: | Arrival: Between August 24th and 26th |
| Type of team (XC, DH, XC elite, DH elite, dual, etc.): | Departure: Maximum on 09/2/2024 at 10 a.m. |

Venues details:

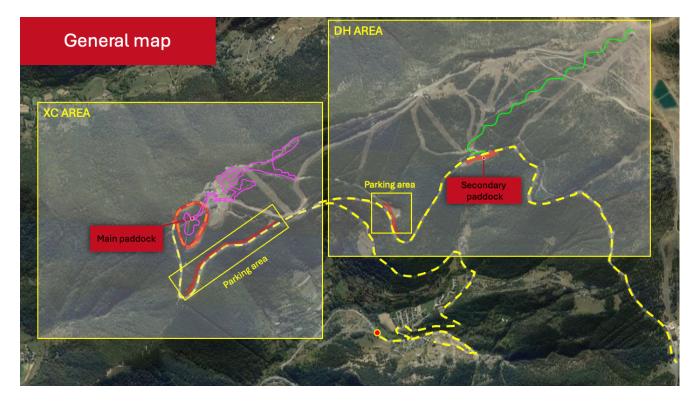

For logistical reasons, all national teams will be located in the Caubella paddock, the main event area, with direct access to the La Massana gondola and connected by shuttles between the DH and XC venues. The road will be closed during all competition days (yellow line on the map), only accredited vehicles will be able to travel there.

The secondary paddock is intended for all elite DH and IMTTO DH teams.

Teams participating in DH events will be able to travel with their authorized vehicle to the Fontanals area to unload their equipment, then park in the areas reserved for teams. The national DH teams will have a technical space of 100 m2 to share between all the teams (same operation as in 2023) protected by a tent with platform at the foot of the Cubil chairlift.

To facilitate access to the paddock and maximize safety, team vehicles cannot park in the paddock area, but park in the parking area indicated below. Teams can only have one fixed vehicle and one mobile vehicle authorized in their reserved location. The rest of the vehicles will not be able to access the paddock areas and will have to park in the team areas.

Paddock Rules:

This year, team vehicles cannot be included in the paddock area, this can only include a fixed structure and a single vehicle that can be moved within the stipulated time frame, the rest of the team vehicles must be parked in the indicated area (between the Caubella bridges and Pal shooting range). Any team not respecting these regulations will be penalized by the traffic department.

It is absolutely forbidden to clean the bikes, empty the contents of the wheels or dump any substance inside the paddock; teams must clean them and empty their waste in authorized spaces.

The Andorran Highway Code states that: users who travel on public roads with motorized personal mobility vehicles must respect the following obligations:

- They must wear reflective clothing or accessories on interurban roads and when weather or light conditions require it.
- They must wear an approved and properly attached protective helmet during long-distance journeys.
- They cannot transport another person
- They cannot have headphones turned on and connected or any other sound emitting device
- They cannot drag loads
- They cannot be towed by any other vehicle

During the competition days, the Bike Park will remain closed, so it is completely prohibited to circulate with bicycles and electric bikes on the competition circuits. Only competition and warm-up bikes will be allowed. This also applies to the cable car, only riders' bikes will be allowed (with a number), the rest of the bikes will not be accepted. It is recommended to travel with authorized team vehicles and shuttles.

Space rental rates (Please indicate the modality you want as well as the space you want)

| | Non-national teams & IMTTO / Tech Alley Members | Exhibitors |
|-------------------------------|---|---|
| Vehicle accreditation | 1 fixed vehicle/module 1 vehicle with access to the paddock 1 vehicle with parking access | 1 fixed vehicle/module 1 vehicle with access to the paddock 1 vehicle with parking access |
