

OFFICIAL COMMUNICATION
DHI Information

Please note that the regulations of the LOC based on a request from the police is that no bikes can be taken or ridden on the DHI hill except for competition bikes with a number board, and the bikes taken to the start by mechanics for athlete warm-up.

Absolutely no other bikes are allowed on the hill, including coaches.

The “accredited motorcycle bike” plates that have been issued are only to allow circulation by bike between the XCO & DHI venues, or from hotels into the paddocks – this does not permit the bike to be taken on a chairlift.

This is a strict request from the organisers, the police and the security services which is supported by the UCI, and any person identified not respecting the above information will have their event accreditation removed, so we thank you for your collaboration to help make the event as safe as possible.

President of the Commissaires' Panel
Technical Delegate

EVANS Justin (USA)
BALAUD Alex (FRA)
